

Issuing Date 2015-02-06

Revision Date 2015-03-06

Revision Number 2

1. Identification of the substance/preparation and of the Company/undertaking

Product Identifier

Product Type Welding rods, Coated rod (electrode), Welding wire Product name Stellite 12 Rod/Wire/Electrode/Part

Product code KSYC1003-1

Type > 1x1x1 mm, Base metals and alloys

Other means of identification

Synonyms No information available

Recommended use of the chemical and restrictions on use

Recommended Use Service life, cobalt and/or nickel containing alloys, steels, prefabricated parts and tools,

Metallurgical Products, Wear and Corrosion Resistant Welding Consumable, Wear and

Corrosion Resistant Components, For use in industrial installations only

Uses advised against Consumer use

Details of the Supplier of the Safety Data Sheet

Emergency Telephone Number

CHEMTREC: +1-703-527-3887 (INTERNATIONAL) **Emergency Telephone Number**

1-800-424-9300 (NORTH AMERICA)

NRC (National Response Center) USA, Poison Centres +1 800 222 1222

Canada, IWK Regional Poison Center +1 902 470 8161 or 1 800 565 8161

Prepared by Kennametal Inc. 1600 Technology Way Latrobe, PA 15650, USA

E-mail k-corp-product.safety@kennametal.com

2. Hazards Identification

Classification

This product does not require a hazard communication label as it does not pose a hazard in the form delivered. Hazards can occur while using this product. Please read and follow the instructions of this SDS

Acute toxicity - Oral	Category 4
Respiratory sensitization	Category 1B
Skin sensitization	Category 1
Carcinogenicity	Category 1B
Reproductive Toxicity	Category 2

Label Elements

Emergency Overview

DANGER

Hazard Statements

Harmful if swallowed. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause cancer by inhalation.

Stellite 12 Rod/Wire/Electrode/Part -KSYC1003-1

Validity area - USA, Canada, Mexico, Brazil, South America

Page 1/14

May cause an allergic skin reaction. May damage fertility. Causes damage to organs through prolonged or repeated exposure.

May cause long lashing harmful effects to a quartic life.

Heating may cause a fire.

Precautionary Statements - Prevention

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Do not breathe dustifume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wear respiratory protection. In case of inadequate ventilation wear respiratory protection. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention Specific treatment is urgent (see supplemental first aid instructions on this label) Eyes IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Skin IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention, Wash contaminated clothing before reuse. Inhalatton IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician. Ingestion IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.

Precautionary Statements - Storage
Store locked up. Store in a well-ventilated place. Keep container tightly closed.

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant.

Appearance solid metallic

Physical State @20°C solid

Odor odorless

Hazards not otherwise classified (HNOC)

Welding Hazards

CAUTION. Welding will create fumes which may be toxic. If welding is performed on plated or coated materials such as galvanised or painted steel, excessive fume may be produced which contains additional hazardous components, and may result in metal fume fever or other health effects. The product and work surface will be hot during and after welding. Electric shock can kill. Arc Rays can injur eyes and burn skin.

Other Hazards

May be harmful if swallowed. Causes mild skin irritation. Very toxic to aquatic life with long lasting effects. Very toxic to aquatic life.

Unknown Aquatic Toxicty

37.65% of the mixture consists of ingredient(s) of unknown toxicity

3. Composition/Information on Ingredients

Chemical name	Formula	CAS-No	weight-%	GHS Classification
Cobalt	Co	7440-48-4	> 50	Acute Oral 4 (H302)

Full text of H-Statements referred to under sections 2 and 3

H302 - Harmful if swallowed

H317 - May cause an allergic skin reaction

H319 - Causes serious eye irritation

H330 - Fatal if inhaled

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

H350i - May cause cancer by inhalation

H351 - Suspected of causing cancer if inhaled H361f - Suspected of damaging fertility

H372 - Causes damage to the following organs through prolonged or repeated exposure if inhaled:

Lungs

H400 - Very toxic to aquatic life

H410 - Very toxic to aquatic life with long lasting effects H412 - Harmful to aquatic life with long lasting effects

4. First aid measures

FIRST AID MEASURES

Ingestion

General advice If symptoms persist, call a physician. Do not breathe dust/fume/gas/mist/vapors/spray. Do

not get in eyes, on skin, or on clothing. In case of accident or unwellness, seek medical

advice immediately (show directions for use or safety data sheet if possible).

Eye Contact Keep eye wide open while rinsing. If symptoms persist, call a physician. Rinse immediately

with plenty of water, also under the eyelids, for at least 15 minutes.

Skin contact Consult a physician if necessary. Wash off immediately with soap and plenty of water while

removing all contaminated clothes and shoes. Wash off immediately with soap and plenty

of water.

Inhalation Move to fresh air, if breathing is irregular or stopped, administer artificial respiration.

Oxygen or artificial respiration if needed. Get medical attention. Avoid direct contact with

skin. Use barrier to give mouth-to-mouth resuscitation.

Do NOT induce vomiting. Drink plenty of water. If symptoms persist, call a physician. Rinse

mouth.

Self-protection of the first aider

Self-protection of the first aider. Wear suitable gloves.

Most important symptoms and effects, both acute and delayed

effects, both acute and delayed

4.2. Most Important symptoms and May cause allergy or asthma symptoms or breathing difficulties if inhaled, CNS and psychiatric effects, Parkinson-like symptoms. Languor, sleepiness and weakness in legs. A stolid masklike appearance of face, emotional disturbances such as uncontrollable laughter and spastic gait with tendency to fall in walking and findings in more advanced cases. Persons with a history of asthma, allergies, chronic or recurrent respiratory disease should

not be exposed to any process in which this product is used.

Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically, May cause sensitization by inhalation and skin contact. May cause

sensitization of susceptible persons.

5. Fire-fighting measures

Suitable extinguishing media Use extinguishing measures that are appropriate to local circumstances and the

surrounding environment.

Extinguishing media which must not be used for safety reasons

none

Specific hazards arising from the

chemical

Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes Thermal decomposition can lead to release of irritating and toxic gases and vapors May cause sensitization by inhalation and skin contact

Carbon oxides

Protective equipment and precautions for firefighters Use personal protective equipment as required in the event of fire, wear self-contained

breathing apparatus

omnoport Information

Component unonnation		
Chemical name	Extuinguishing Media for Fires (Suitable)	Extinguishing Media for Fires (Unsuitable)
Chromium	Use extinguishing media appropriate for surrounding fire.	Do not use carbon dioxide, which may form an explosive
		mixture with powdered chromium.
Silicon Metal	SMALL FIRES: Dry chemical, sand, water spray, foam.;	•
	LARGE FIRES: Water spray, fog, foam	

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions Environmental precautions Methods and material for containment and cleaning up See Section 12 for additional Ecological Information.

Avoid release to the environment

Pick up and transfer to properly labeled containers. Avoid generation of dust. Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust

7. Handling and Storage

Precautions for safe handling

Do not eat, drink or smoke when using this product. Use personal protective equipment as required. Avoid contact with eyes, skin and clothing. Wash contaminated clothing before

reuse. Do not breathe dust/fume/gas/mist/vapors/spray.

Conditions for safe storage, including any incompatibilities

Storage Keep out of the reach of children. Keep container tightly closed in a dry and well-ventilated

place. Keep containers tightly closed in a cool, well-ventilated place.

Incompatible products

None known based on information supplied.

Specific use(s) Welding.

8. Exposure Controls/Personal Protection

Appropriate engineering controls

Engineering controls

Showers

Eyewash stations Ventilation systems.

Individual protection measures, such as personal protective equipment

Eye Protection Use suitable eye protection to guard against the effects of welding. Wear safety glasses

Stellite 12 Rod/Wire/Electrode/Part - KSYC1003-1

Validity area - USA, Canada, Mexico, Brazil, South America

Page 6/14

with side shields (or goggles). Eye-irrigation bottle with pure water.

Skin Protection Long sleeved clothing. Wear fire/flame resistant/retardant clothing. Wear impervious gloves

and/or clothing if needed to prevent contact with the material. Gloves should be replaced

regularly and if there is any sign of damage to the glove material.

Hand Protection Protective gloves. The product and work surface will be hot during and after welding.

Ensure adequate protection is in place to stop individuals from burning themselves.

experienced, NIOSH/MSHA approved respiratory protection should be worn.

Positive-pressure supplied air respirators may be required for high airborne contaminant

concentrations. Respiratory protection must be provided in accordance with current local

regulations

Hygiene Measures Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or

smoke when using this product. Regular cleaning of equipment, work area and clothing is recommended. Keep away from food, drink and animal feeding stuffs, Avoid contact with

skin, eyes and clothing. Wash hands before breaks and at the end of workday.

10. Stability and Reactivity

Reactivity Stable under normal conditions

<u>Chemical stability</u> Stable under normal conditions. <u>Possibility of Hazardous Reactions</u> None under normal processing.

Conditions to avoid Keep away from sources of heat (e.g. hot surfaces), sparks and open flames.

incompatible materials Acids. Strong oxidizing agents.

Hazardous decomposition products Thermal decomposition can lead to release of toxic/corrosive gases and vapors.

11. Toxicological Information

Information on likely routes of exposure

Product Information

Inhalation May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Eye Contact May cause eye irritation with susceptible persons.

Skin contact Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.

Prolonged contact may cause redness and irritation. Prolonged skin contact may defat the

skin and produce dermatitis. May cause sensitization by skin contact.

Ingestion Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion

may cause irritation to mucous membranes.

Reproductive toxicity Chronic toxicity

Contains a known or suspected reproductive toxin.

Prolonged exposure may cause chronic effects. CNS and psychiatric effects, Parkinson-like symptoms. Languor, sleepiness and weakness in legs. A stolid masklike appearance of face, emotional disturbances such as uncontrollable laughter and spastic gait with tendency to fall in walking and findings in more advanced cases. Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. Repeated or prolonged exposure may cause central nervous system damage. Contains a known or suspected reproductive toxin. This product contains one or more substances which are classified by IARC as carcinogenic to humans (Group 1), probably carcinogenic to humans (Group 2A) or possibly carcinogenic to humans (Group

Target organ effects

blood, central nervous system (CNS), Central Vascular System (CVS), Eyes, kidney, liver,

Lungs, Nasal Cavities, respiratory system, Skin.

Neurological effects

Repeated or prolonged exposure may cause central nervous system damage. Prolonged or excessive exposure to manganese in dust or fume may cause irreversible central nervous system damage (Manganism). Symptoms resemble Parkinson's disease and include

tremors, impaired speech, mask like face and impaired movement.

Numerical measures of toxicity

No data available

The following values are calculated based on chapter 3.1 of the GHS document

ATEmix (oral)

508 mg/kg 5 mg/kg 10 mg/l

ATEmix (dermai) ATEmix (inhalation-gas)

12. Ecological Information

This product contains a chemical which is listed as a marine pollutant according to DOT.

12.1. Ecotoxicity

96% of the mixture consists of components(s) of unknown hazards to the aquatic

environment

Stellite 12 Rod/Wire/Electrode/Part -KSYC1003-1

Validity area - USA, Canada, Mexico, Brazil, South America

Page 10 / 14

12.2 Persistence and degradability Product/Substance is inorganic, not applicable.

12.3 Bioaccumulative potential No information available.

12.5 Results of PBT and vPvB assessment

The components in this formulation do not meet the criteria for classification as PBT or

vPvB

12.6 Other adverse effects None known

13. Disposal Considerations

Waste treatment methods It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and

properties of the inaterial generated to determine the proper waste identification and disposal methods in compliance with applicable regulations, it must undergo special treatment, e.g. at suitable disposal site, to comply with local regulations.

Waste from residues/unused Reuse or recycle. Recover or recycle if possible. Dispose of in accordance with local

products regulations.

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or

disposal.

California Waste Status This product contains one or more substances that are listed with the State of California as

a hazardous waste.

Chemical name	California Hazardous Waste Status
Cobait	Toxic
	lgnitable
Chromium	Toxic
	Corrosivo
	lgnitable
Nickel	Toxic
	lgnitable
Manganese	Ignitable
Mołybdenum	Ignitable

14. Transport Information

DOT	Not regulated		
Chemical name	U.S DOT Reportable Quantities	DOT Marine Pollutant	DOT Severe Marine pollutant
Chromium	5000 lbs RO (The RQ for these hazardous substances is limited to those pieces of the metal having a diameter smaller than 100 µm (0.004 inches).) 2270 kg RQ (The RQ for these hazardous substances is limited to those pieces of the metal having a diameter smaller than 100 µm (0.004 inches).)		
Nickel	100 lbs RQ (The RQ for these hazardous substances is limited to those pieces of the metal having a diametor smaller than 100 µm (0.004 inches), 16.4 kg RQ (The RQ for these hazardous substances is limited to those pieces of the netal having a diameter smaller than 100 µm (0.004 inches).	·
